

InvoBridge

Turning NRS E-Invoicing Compliance Into a Business Advantage

Automated Compliance • Enhanced Security • Future-Ready Business

An Infonomics Solution

NRS E-Invoicing Is Now the Law of Business

It's Mandatory

The Nigeria Revenue Service now requires structured, real-time e-invoicing for compliant businesses. There is no opting out.

The Cost of Waiting

Errors, missed submissions and reputational damage await businesses that treat this as an afterthought.

The Real Opportunity

Businesses that get ahead of it turn a compliance deadline into a smarter, more digital way of working.

Introducing InvoBridge, Your Bridge to Compliance

InvoBridge is Infonomics' ready-to-deploy solution that connects the systems you already use, SAP, Oracle, custom platforms or spreadsheets, directly to the NRS e-invoicing platform.

No rip-and-replace. No reinventing how your business runs.

Just a fast, secure bridge between what you have today and what NRS requires tomorrow. We handle the complexity so your team doesn't have to.

Don't have an ERP? No problem. A user-friendly interface lets you raise invoices and submit straight to NRS right on InvoBridge.

**One Platform.
Every System.
One NRS Connection.**

Why Businesses Trust Infonomics

A Decade of Delivery

Ten years deploying enterprise-grade digital solutions across Nigeria.

There From Day One

We worked alongside NRS from the earliest days of the e-invoicing initiative.

Built-In Control

Every submission is checked, logged and traceable, giving Finance, Tax and Audit teams full confidence.

A Partner, Not Just a Vendor

We adapt to your systems and your team, not the other way around.

More Than Compliance

Turn Every Invoice Into Business Insight

Every e-invoice already carries valuable information about your customers, products, taxes and cash flow. Most businesses only ever see it as a tax form.

With InvoBridge, that same data becomes a live feed into smarter cash-flow forecasting, vendor spend visibility, customer activity and purchasing trends, so compliance starts paying you back.

**From Tax Form
to Insight Engine**

What InvoBridge Does for You

Connects Any System

Works with the ERP, accounting or billing tools you already use. No replacement required.

Checks Before You Submit

Catches errors before they reach NRS, so you avoid rejections and rework.

Built for Busy Periods

Keeps your business moving during peak trading, even at high transaction volumes.

Secure and Audit-Ready

Every transaction is protected and logged, ready for any compliance review.

No ERP? No Problem

A user-friendly interface lets you raise invoices and submit straight to NRS right on InvoBridge, no system integration needed.

Ready for Cross-Border Growth

Built on open standards, so you're ready as digital trade expands across Africa.

The Value to Your Business

Lower Risk

A proven solution with established integrations minimizes uncertainty and speeds up delivery.

Faster Compliance

Pre-built NRS connectors and ready-made rules get you compliant in weeks, not months.

Operational Clarity

One point of control for status, exceptions and resubmissions keeps your teams ahead of the curve.

Smarter Cost Management

Reuse what already works and configure only where needed. No expensive bespoke rebuilds.

Why Businesses Choose InvoBridge

What Matters to Your Business	With InvoBridge
Compliance Visibility	✓ High
Audit & Logging	✓ End-to-End
Speed to Go-Live	✓ Faster
Scalability	✓ Yes
Cost to Integrate	✓ Affordable
Deployment Risk	✓ Controlled

Your Invoice Journey With InvoBridge

Your System

Your ERP, billing tool or spreadsheet raises the invoice, business as usual.

InvoBridge Takes Over

We validate, format and securely submit it to NRS on your behalf.

NRS Confirms

The invoice is registered, IRN and QR code issued, and status tracked.

You Get Reports

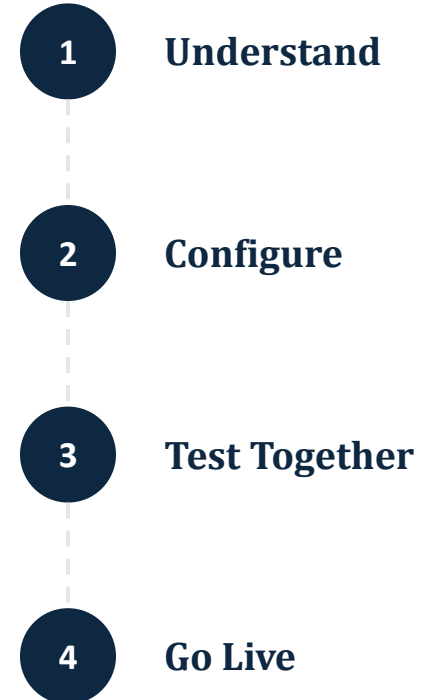

Real-time visibility and exportable reports land with your finance team.

A Smooth Path to Go-Live

We start by understanding how your business already works, not the other way around.

Our team handles setup, configuration and testing, supported by clear documentation and hands-on training, so your finance, sales and operations teams are ready before we go live.

No surprises. No disruption to the business you're already running.

The Bottom Line

- Reduces costly errors by automating critical processes and eliminating manual mistakes.
- Enhances efficiency across teams, freeing up valuable time and resources to focus on growth.
- Guarantees compliance with regulatory requirements, lowering risk and building stakeholder confidence.
- Prepares your business for scalable digital operations, future-ready and equipped to expand.

Thank You

Let's Get Your Business Compliant and Future-Ready
